Tonight: Gala Evening Attire

Queen Mary 2 Voyage M535

Time zone: UTC +1

Sunrise 8.50am Sunset 2.19pm

Remembrance Day

Marking the anniversary of the end of the First World War, today we honour all those who have died in the line of duty. Our crew will be observing a two-minute silence at 11.00 am and invite all guests to join them to remember those who lost their lives. Fellow guest Danny Ellem, Musical Director of the Gold Coast City Brass Band, Australia, will play the Last Post marking the two minute silence in the Grand Lobby.

At sea, en route to Tromsø

From the Navigator

Today we will sail North, passing the Lofoten archipelago in the early evening. Queen Mary 2 will arrive in Tromsø in the early hours of Wednesday morning. After passing the uninhabited island of Nordfugløya to the north of Tromsø, we will make a fjord passage of around 45NM. Tromsø is the largest city in Northern Norway (with a population around 43,000) and is located about 350 km north of the Arctic Circle. The Arctic Circle's latitude is approximately 66°33' North, marking the southernmost latitude in the Northern Hemisphere where the sun can remain continuously visible or out of sight for 24h. This phenomenon is known as the midnight sun during the summer solstice and polar night during the winter solstice.

Ann Daniels

Polar Explorer

Ann is one of Britain's leading explorers. As a mother of four children, after training extensively in Norway, she entered the Guinness book of world records as part of the first all women's team to reach the North and South poles. The presentation follows her adventures in the harshest most difficult terrains on earth, crossing the Arctic Ocean and Antarctica.

Royal Court Theatre 11.15am

Dr Daniel Verscharen

Space Physics and Astronomy

Today's space-weather forecast: temperatures around 100,000 degrees and wind speeds of about 800 km/s. The Earth is embedded in the Sun's outermost atmosphere, through which the solar wind flows as a stream of hot and fast particles. When this wind interacts with the Earth, it creates "space weather". Under benign conditions, it produces the beautiful northern lights. However, when it is intense, it can cause major disruptions to human technology and society.

Illuminations 12.15pm

Rod Repton

Lest We Forget

This is the story of events that occurred over 100 years ago, Remembering those that gave so much for us, he will tell you about a plot by militant suffragettes to kill the Prime Minister at the time of the great war. He will illustrate how the conspiracy led to their imprisonment after a government secret agent infiltrated their group.
